

AGN. NO. \_\_\_\_\_

MOTION BY SUPERVISOR MICHAEL D. ANTONOVICH

AUGUST 17, 2004

Water supply in the Antelope Valley is a matter of significant and growing concern, given the limitations of the area's groundwater and the consequent reliance on imported water supplies and water treatment facilities. As new development takes place and the population continues to grow, the Antelope Valley increasingly faces the possibility of water supplies that may be inadequate to meet the needs of its residents.

I, THEREFORE, MOVE that the Board of Supervisors instruct the Director of Public Works and County Counsel to report back within three weeks on options available to the County to impose new fees on new development projects for the purpose of financing expanded water delivery systems and treatment facilities to meet the current and future needs in the Antelope Valley.
